INTRODUCTION

The Statistical Appendix provides background information on the Northeastern Ontario Planning Region. Compiled from data published by Statistics Canada, the Department of National Revenue and the Ministry of Natural Resources, Division of Mines, the tables were prepared by Mrs. Pearl Vaughan and the Statistical Services Section of the Regional Planning Branch.

The Statistical tables contained in this appendix are intended mainly to support the continuing provincial planning process in Northeastern Ontario. However, the information provided may well be a convenient source of data for persons wishing to make further analysis of the region. The tables do not represent all of the available or published data on the region; only data considered of greatest significance and widest interest are included. The statistics are generally for the period 1961 to 1971 inclusive.

The Statistical Appendix is being continually enlarged and updated as additional data becomes available.
